

## Multimedia Appendix 4

*Table S3. Perspectives on the ICU-VR intervention.*

Supplement to:

**Intensive Care Unit-specific Virtual Reality for Critically Ill COVID-19 Patients With COVID-19:  
Multicenter Randomized Controlled Trial.**

**Table S3. Perspectives on the ICU-VR intervention.**

<b>Perspectives on the timing and number of sessions, n (%)</b>			<b>ICU-VR group</b>
1) Would you have liked to see the intervention multiple times?	Yes		11 (30%)
	No		19 (51%)
	I don't know		7 (19%)
2) Would you have liked to be given the possibility to see the intervention at home as well?	Yes		14 (38%)
	No		22 (59%)
	I don't know		1 (3%)
3) Do you think the timing was appropriate?	Yes		27 (73%)
	No, earlier would have been better		7 (19%)
	No, later would have been better		0 (0%)
	I don't know		3 (8%)
<b>Overall perspectives on the ICU-VR intervention, mean (SD)</b>			
4) On a scale from 1 to 10, how much would you recommend other ICU survivors to use the VR intervention?	Score		9.0 (1.1)
	Score >5, n (%)		37 (100%)
5) On a scale from 1 to 10, how happy are you that you have seen the VR intervention?	Score		8.8 (1.4)
	Score >5, n (%)		35 (95%)
6) On a scale from 1 to 10, how would you value the ICU-VR intervention in general?	Score		8.7 (1.0)
	Score >5, n (%)		37 (100%)
<b>Perspectives on the content of the ICU-VR intervention, mean (SD)</b>			
7) On a scale from 1 to 10, to what extent did the VR intervention fulfill your needs for information?	Score		6.8 (2.5)
	Score >5, n (%)		28 (76%)
8) On a scale from 1 to 10, how comprehensive did you find the explanation given in the intervention?	Score		8.6 (1.2)
	Score >5, n (%)		36 (97%)
9) On a scale from 1 to 10, to what extent did you think the information given was complete?	Score		8.4 (1.4)
	Score >5, n (%)		35 (95%)
<b>Perspectives on the effect of the ICU-VR intervention, mean (SD)</b>			
10) On a scale from 1 to 10, how much did the VR intervention help you understand what happened to you during your ICU treatment?	Score		7.2 (2.5)
	Score >5, n (%)		28 (76%)
11) On a scale from 1 to 10, to what extent did the VR intervention help you understand your memories from the ICU treatment, of did it help you put those memories into perspective?	Score		6.6 (2.8)
	Score >5, n (%)		24 (65%)
12) On a scale from 1 to 10, to what extent did the VR intervention help you put your ICU admission at rest?	Score		6.8 (2.8)
	Score >5, n (%)		27 (73%)
13) On a scale from 1 to 10, to what extent did the VR intervention help you process your ICU admission emotionally?	Score		6.2 (3.0)
	Score >5, n (%)		24 (65%)
Outcomes of the perspectives on ICU-VR questionnaire. These questions were only filled out by patients randomized to the ICU-VR group.
